

## OUR TOBACCO TIDINGS COLUMN

An Interesting Account of What is  
Going on in the Various Counties  
of the District by J. N. Banks.

The District Board of the Stemming Association met in this city at 10:30 a. m. yesterday to consider numerous subjects of concern to the Association. All five committeemen, namely, F. F. Brown chairman, Hopkins; I. N. Baker, Webster; Geo. L. Campbell, Henderson; Hiram Dean, Union, and W. B. Rankin, Crittenden. The committee had reports to date of progress of the pooling from all the counties, and now the weak points in all the district. The pooling is in a very satisfactory shape on the whole in the counties of Henderson, Union and Webster. And yet there are weak spots in each county and loyal members are admonished to relax nothing of effort to pool more tobacco in all three named counties. Hopkins promises to pool up 85 per cent, but friends of the Association must persist in steady, untiring work in the county of Hopkins. Crittenden county is more backward than any other county, and the committee is quite worried about Crittenden county. However, more will be learned in the next two weeks. The good Lord knows Crittenden county, for the sake of her own prosperity, should get busy and sign up to this Association. For the Association has from the beginning carried in her arms the county of Crittenden, for she has always been the weaker of the five sisters.

I talked with Messrs Brown and Campbell about the wheat crop and tobacco crop.

In answer to my inquiry the gentleman named said the wheat crops in their counties were thin on the ground and were more or less injured by the Hessian fly, and in consequence the yield would not be more than half of a real good crop. "And yet," both said, "the grain will be extra long, for the heads are extra long and will average four grains to the mesh."

They represent that the stand of tobacco is extra good, and the plants are making a wonderful growth. Mr. Brown frankly says that while certain districts in Hopkins are pooling up in the most satisfactory manner, yet there are a few districts which are signing up tardily. "In my own district," said Mr. Brown, "out of 147 acres there signed up 121 acres, and other acres may yet be signed. On the whole," concluded Mr. Brown, "the prospects now are good for signing up the required 85 per cent. in Hopkins county. The Association is especially strong around Hanson and Nebo, and in all that section of Hopkins adjoining Webster county."

### OVER IN HOPKINS COUNTY

Carr Hawkins, a strong believer in farmers' co-operation and a loyal Association man, withal, in a recent letter from Nortonville to Cincinnati Tobacco Tidings, writes cheering news regarding the pooling of the 1910 crop in Hopkins. Note that he says: "It looks like it is going to be unanimous for the Association."

"I have spent what little money I could get honestly in trying to organize the farmers, and my fight has been made without price or money. I felt that if I could do anything to advance prosperity nearer the good over-worked women and children of Kentucky, it was my duty to do it. I am now walking from one school house to another to organize the 1910 pool, and the good farmers are flocking to my support and at present it looks like it is going to be unanimous for the Association."

"The meetings I attend are like being at a good old-fashioned Methodist revival, because I meet the good, honest farmers and shake their horny hands. We have song prayer, and then we listen to one another speak, and I'll tell you I have listened to some of the best speeches in the last two weeks I ever heard. I think the pool in the Stemming District Association will be greater than ever before."

"A great many stayed out last year, on account of being 25 per cent. behind on the 1908 crop, and the little tobacco buyers told them they would never get it, but as it has been paid they are willing to come in. It would never do for this organization to go down, as it has caused education instead of ignorance, prosperity instead of starving, and laughter instead of tears. But, gentlemen, let's go after the grafters with sharp sticks till we get rid of them."

"Lovingly,  
CARR HAWKINS."

### GET INSIDE

Your Friends and Neighbors in  
Marion Will Show You How

Rubbing the back won't cure backache.

A liniment may relieve, but can't cure.

Backache comes from the inside—from the kidneys.

Doan's Kidney Pills get inside—They cure sick kidneys.

Here is Marion proof that this is so: Jane Byford, Marion, Ky., says: "I was greatly benefited by Doan's Kidney Pills and consequently I am in position to recommend them. My kidney trouble was brought on by exposure, together with hard work. I suffered from the complaint for two years. I was unable to rest well on account of dull pains through my back and in the morning arose feeling very stiff. When I stopped, sharp twinges seized me and caused me intense suffering. I tired easily, was nervous and had dizzy spells and headaches. I knew from the sediment in the kidney secretion that my kidneys were disordered and a frequent desire to pass the secretion at night also convinced me of this fact. Since using Doan's Kidney Pills, procured at Haynes & Taylor's Drug Store, I have improved a great deal in every way. I have no hesitation in recommending this remedy as one that lives up to representation." For sale by all dealers. Price 50 cents Foster-Wilburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Hope, New Mexico.

Dear Mr. Editor:—We are expecting to have a grand celebration here the glorious Fourth which will last two days. Things will be done in Western style in great shape. I hope to be able to give my home town an account of how they are done. Of course I am going to be in the rush with my hands and mouth open. I am to be the speaker of the occasion and open up the firing line with a Welcome Address.

In order to round the bullies in right good I have written them up a little word by way of poetic exhortation. Perhaps you would like to know how I will spend the Fourth out here, and would like to run these few lines in the next issue of your paper. I believe it will interest my home people and friends of old Crittenden.

Yours truly,  
BEVERLEY T. TOWERY

### IN MEMORY

Benjamin F. Towery was born May 7th 1836, and died at his home at Piney, Crittenden Co., Ky., March 3, 1910. A wife and nine children survive him J. P. Towers, of Silverton, Ore., Mrs. J. P. Tucker, of Amity, Ore., H. B. Towery, of Pioneer, California, S. A. Towery, of Marion, Ill., W. G. Towery, of Temple, Okla., Mrs. G. R. Little, and Frank Towery of Providence, Ky., and Misses Mary and Maggie Towery.

He professed faith in Christ at the age of 15 years and lived a consistent Christian life. He was a great sufferer. For many years he had been afflicted with rheumatism, and the greater part of the time was unable to leave his chair, yet he bore his afflictions with patience and was always cheerful. Although interested in the success of his friends and relatives, yet his thoughts were turned from this world to the world to come. His last sickness was only a few days in duration. He expressed his regret at leaving behind his devoted wife, who had nursed, cared for and cheered him through so many years of suffering and seclusion, but was perfectly resigned to his Master's will. He said to his friends a short time before he died realizing that death was nigh, "I have fought a good fight and have the faith and am prepared to meet my Lord."

A good man is gone, but we "weep not as those who have no hope," for we know that our loss is his eternal gain, a place in the home has been made vacant, but as David said, "We know where to go to find Him."

His funeral was preached by Rev. J. F. Bumpus after which his remains were laid to rest in the family graveyard.

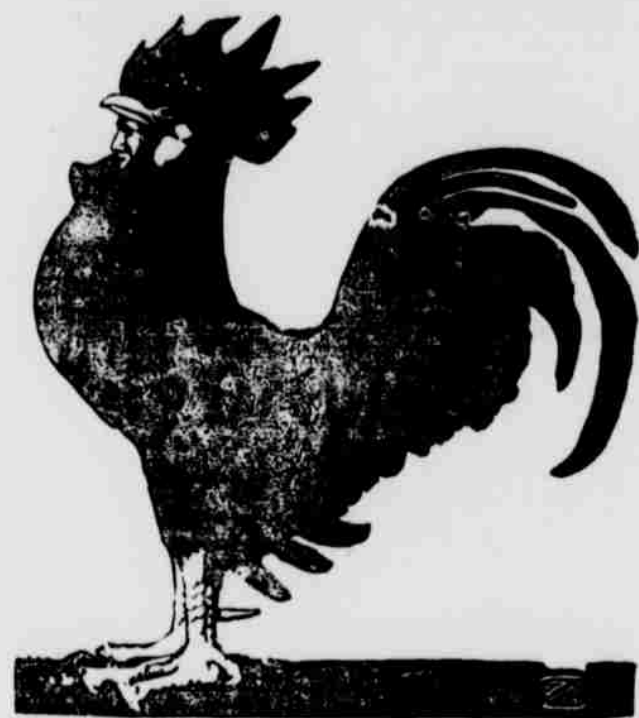

Besides wife and children the deceased leaves three brothers, E. Towery and Judge Aaron Towery, of Crittenden county and George Towery, of Dixon, Ky., and two sisters, Mrs. E. A. Jenkins, of Madisonville, Ky. Mrs. Johnson, of Piney. Earth has lost its look of gladness.

## TO OUR READERS!

By special arrangement we offer you a great opportunity to read

# "Chantecler"

EDMOND ROSTAND'S wonderful "Chantecler" is the dramatic sensation of the world. In it Rostand proves himself to be one of the greatest dramatists of all times. "Chantecler" is not only the greatest play of the century—it is the one great play of the last hundred years. It is an exquisite story, palpitating with human sympathy and interest. It warms the blood—stirs the emotions—arouses every commendable sentiment. "Chantecler" sparkles with wit—counsels with wise philosophy—entertains with fascinating idiom—while the tones of the hour bell of today, and today's problems, are heard through the medium of "Chantecler's" deliciously up-to-date slang. No language contains sufficient superlatives to describe it. Only reading and study will enable you to appreciate it. It has aroused all France—London has gone mad over it.

### The Only English Translation

Rostand has chosen HAMPTON'S MAGAZINE as the medium through which to present "Chantecler" to the English-reading world. The publication will be in four installments, one act to each instalment, beginning in the June number. The translator is the same who helped to make "Cyrano de Bergerac" so fascinating to American booklovers.

We have made special arrangements with the publishers of HAMPTON'S by which our readers may get "Chantecler" and the many other fine features published in HAMPTON'S in connection with our own paper, practically without cost. Read our offer below.

### OTHER EXPENSIVE FEATURES

HAMPTON'S MAGAZINE every month contains the most costly, most important, and most interesting contents ever put between the covers of a general magazine. "Peary's Own Story" of the discovery of the North Pole, a \$50,000 feature, is now in its most interesting stage, giving the positive "proofs" that Commander Peary and no other man discovered the North Pole. "The True History of the Southern Pacific Railroad" by Charles Edward Russell is one of the greatest magazine serials ever published. Mrs. Rheta Childs Dorr's articles on the "Power of the Women's Clubs" are without an equal in their appeal to women everywhere. Fiction contributors include the foremost story-tellers of

the world: Arthur Stringer has a new series called "The Adventures of an Insomniac;" James B. Connolly describes in several stories his Trip Around the World with the American Fleet; Frederick Palmer is contributing a series of airship stories of which Danbury Rodd is the central character. The only new idea in detective fiction since Sherlock Holmes is provided in the second series of stories about Luther Trant, the psychological detective, written by Edwin Balmer and William G. MacHarg. Other Short Stories are by such favorites as O. Henry, Gouverneur Morris, Charles Belmont Davis, Rupert Hughes, Josephine Daskam Bacon, Harris Merton Lyon and many others.

### Special Offer to Readers of This Paper

### An Expert's Opinion of Skin Diseases.

A prominent, rational expert on skin diseases whose name you are familiar with says that in all his scientific experience he has never found so hard a disease to conquer as Eczema. Yet he does not hesitate to recommend ZEMO as a most successful remedy for the treatment of Eczema, itching skin diseases, dandruff, pimples, blackheads and all other diseases of the skin and scalp. He says that not only do its curative qualities make it popular but also the fact that it is a clean, liquid remedy for external use. A great improvement over the old style greasy salves and lotions which are not only unpleasant to use but do not destroy the germ life that causes the disease. ZEMO draws the germs to the surface and destroys them, leaving the skin clear and healthy. Can be used freely on infants. Haynes & Taylor will gladly supply those who call with a free sample bottle of ZEMO and a booklet which explains in simple language all about skin diseases and how to cure yourself at home with ZEMO.
